THE INDIAN INVESTIGATION. FORTHCOMING REPORT OF THE COMMISSION AP-POINTED TO INVESTIGATE PROF. MARSH'S CHARGES-AN OUTLINE OF THE CONCLUSIONS

The Commission appointed to investigate the charges made by Prof. Marsh against the administration of affairs at the Red Cloud Indian Agency have completed their report, and will make several copies, one of which will be sent to the President, another to the Department of the Interior, and a third will probably be ent to Gen. Clinton B. Fisk, President of the Board of Indian Commissioners. The members of the Commission refuse to give the details of the report, but it is known that it will be a vindication of the late Secretary of the Interior, Columbus Delano, and of the Indian Depart ment. It deals with the charges in order, and gives the conclusions of the Commission in relation to each. While the report will touch lightly upon the question of specific frauds, it assails the Indian system of contracts and the methods of issuing supplies and annuities. It details the operations of the system, indicates the necessity for a better class of men to administer the trust reposed by the Government, and the desirability of officers of the army acting as a check upon the Indian Agents. There is decided opposition to the transfer of the Indians from the care of the Interior Department to that of the War Department. Special attention however, is given to the necessity for checking the operations of the Indian Accuts, and the report recommends that competent army officers be selected to

perform that duty. The method of issuing the beef supplies, the report states, has also been strongly criticised. At present the cattle, after being weighed, are driven out on the plains, where the Indians get up a mock "buffalo" hunt, the cattle acting as the game. After worrying them for a mile or more the Indians finally shoot them down. The hides are taken off and those portions of the careass which the Indians like are removed, but a large quantity of sound, wholesome meat is left to waste. The report suggests the advisability of issuing the meat on the block, as being the fairest and most economical method; and as the Indians use the hide for trading purposes, it is suggested that the hides be given to them in the proportions to which they would be entitled under the other method.

References are made to the beef contractor and his method of filling his contracts. The contract system has been analyzed and exceptions will be taken to it, on the ground that the tendency is to invite bids for the furnishing of the poorest quality of goods, and at prices so low that honest dealers cannot compete, the result being to draw the sharpers, who enter hetitious bids, and hope by some underband methods to derive a dishonest profit at the expense of the Government or the Indians. finally shoot them down. The hides are taken

WESTERN UNION TELEGRAPH COMPANY. ANNUAL REPORT OF PRESIDENT ORTON-INCREASE IN MESSAGES AND RECEIPTS-FINANCIAL CONDI-

TION-THE CABLE TABSET. The annual meeting of the Western Union Telegraph Company was held yesterday, and President Orton submitted his report for the fiscal year cuding June 30, 1875. It was very long, but the following are the principal points:

the principal points:

The gross receipts for the year from all sources, except proceeds of bonds, were \$9.564.574 (6); the gross expenses were \$6.335.414 77; the difference \$3.229.159 83 being net profit. All sums paid as rental for leased haes are included in the gross expenses. Compared with the preceding fiscal year there was an increase in the gross receipts of \$301.920 62; a decrease in the expenses of \$420.319 06, and an increase in the net profit of \$722.239 68.

There were in operation at the stall of the expenses of

6722,239 68.

There were in operation at the end of the year 72,833 miles of line, 179,294 miles of wire, and 6,565 offices. The number of messages transmitted during the year was 17,153,710, being an increase of 824,454 over the preceding year.

17.153,710, being an increase of 824,454 over the preceding year.

The capital stock of the Company is \$41,073,410, of which the Company owns, and now has in the treasury, \$7,285,935. The difference, \$83,787,475. is the amount of the capital stock outstanding. The bonded debt of the Company, July 1, 1874, was \$5,946,900, of which \$1,498,000 is in the 7 per cent gold building bonds, and \$84,448,900 in 7 per cent currency bonds, which mature Nov. 1, 1875. To provide for the redemption of the bonds falling due in November, new bonds have been issued, which will amount to \$5,001,160, and the product to \$4,751,102 in currency, of which sum \$4,448,900 will be \$4,751,102 in currency, of which sum \$4,448,900 will be \$4,751,102 in currency, of which sum \$4,448,900 will be applied, so far as it has not been done already, to the redemption of the bonds, amounting to that sum, which mature Nov. 1st next, and the balance, \$302,202, will go to income account. When pending transactions are completed the whole bonded debt will stand as follows: seven per cent gold [dollar] building bonds, due

revenue received during the preceding year of \$6.889.54, or about 84s per ceot.

From 1867 to 1875 the extent of line has increased from 46.279 to 72,833 miles, and the wires from 85,290 to 179,234 miles, being an increase of 57 per cent of line and 110 per cent of wire. The number of offices and stations has increased from 2,505 to 6,565, equal to 156 per cent. During the same time the number of messages transmitted has increased 192 per cent, the rate of tolls has decreased 51 per cent, and the gross receipts have increased 46 per cent. The average cost per message during the same time has been reduced from 67 to 37 cents, or about 45 per cent. The increase of 192 per cent in the number of messages transmitted annually, while the mileage of wire has been increased any 110 per cent, is explained by the fact that the number of messages transmitted per mile of wire has been increased 1 per cent. The ability to make so large an increase in the carrying capacity of the wires is due in part to improvement in their conductivity and insulation, and in part to the introduction of the duplex and quadruplex apparatus, by means of which one wire is made to do the ordinary work of two, three, or four wires.

troduction of the duplex and quadruplex apparatus, by means of which one wire is made to do the ordinary work of two, three, or tour wires.

Referring to the turiff the report says that no general change has been made in message rates during the year. In February last, pursuant to previous public announcement, the rates on the lines of the Atlantic and Pacific Telegraph Company, between Boston, Albany, and Washington, and intermediate stations, were reduced to a uniform rate of 25 cents. A corresponding reduction was made by this company, which took effect on the same day. The reduced rates, after having been in operation about six months, were abandoned by an arrangement between the companies, and the former rates restored. The fact that at the end of nine years, during which time the number of messages has mercased 192 per cent, and the average cost per message has been reduced 45 per cent, it now costs this company an average of 37 cents per message for more than 17,000,000 messages, must be accepted as conclusive proof that a company possessing small facilities company during the pact year for operators and messages at the rate of 25 cents each. The cost to this company during the pact year for operators and messagers wages was an average of 21 cents per message, and the repair and maintenance of lines cost 5 cents per message, and the Western Union Company derives no profit from transmission of messages at the rate of 25 cents, even within the short distance of 25 miles, which is the limit of that rate.

The report disclaims all control over the tariff charged by the Anglo-American Company. President Orton

of that rate.

The report disclaims all control over the tariff charged by the Anglo-American Company. President Orton states that when the tariff was raised recently be endeavored to have it reduced, but the managers of the Cabic Company declined, on the ground that the revenue at the reduced rates had proved entirely madequate to insure the permanent maintenance of the cables and the expense of operating them and afford the proprietors any return upon their investment.

SUITS AGAINST THE CITY. The quarterly report of the Corporation Counsel, giving the number of cases pending in the various courts in which the city, represented by the Mayor and Common Council, is either complainant or defendant, and in the majority of which the Corporation Coun sel appears on behalf of the city, was given in The City Record yesterday. There are about 3,250 cases alto-gether. Prominent among these are the Ring cases conducted by special counsel. These have all been given at length heretofore with the amounts sought to be re-covered. In most of the cases given, outside of the Ring

erushing the roof of St. Andrew's Church in Duanest., asks for \$10,000. The counsel of Thomas C. Fields sues for \$17,750, as his salary as Corporation Attorney. The most surprising claim is that of John H. Starin, who makes a demand for \$453,800, expenses meurred as attorney for the Board of Excise several years ago. Nearly all the proprietors of the theaters and other places of annaement sue to recover \$500, the amount of their license fee. There is a suit in the courts to test the constitutionality of the act requiring them to pay a license fee. Andrew Cowen and Michael Connolly, for personal injuries received, asked for \$20,000 each. Cyrus Curtis, receiver, asks for \$116,250, moneys alleged to be due on the Hackley contract. The total suits against the city amount to several millions of dollars.

A NATIONAL GUARD PARADE. REVIEW OF THE FIRST DIVISION BY GOV. TILDEN-LARGE ATTENDANCE OF SOLDIERS AND SPECTA-

The First Division National Guard, paraded on Fifth-ave. yesterday afternoon, and was reviewed by Gov. Tilden. The division formed on Fifth-ave. at 3 p. m., with the right resting on Thirtieth-st. A large number of spectators assembled to witness the display, and occupied the sidewalks from Fortieth-st. to the Worth Monument, were the review took place.

At 3:30 p. m. Gov. Tilden appeared on the ground in civilian's dress, mounted, and accompanied by his staff, in full uniform, as follows: Adjt.-Gen. Franklin Townsend, Inspector-Gen. J. B. Woodward, Brig.-Gen. Kilburn Knox, Chief of Ordnance; Brig.-Gen. Charles Hughes, Judge-Advocate General; Brig. Gen. E. M. Cullen, Engineer-in-chief; Brig. Gen. A. Flint, Jr., Surgeon-General; neer-in-chief; Brig.-tien. A. Filit, Jr., Surgeon-General; Brig.-Gen. E. A. Ellsworth, Quartermaster-General; Brig.-Gen. H. Uhl, Paymaster-General; Brig.-Gen. Charles Smythe, Commissary-General; Aids-de-camp Cols. Pear-sall, Tracy, Strong, Stokes, and Bartlett; Col. George W. Wingate, General Inspector of Rifle Practice, and Col. W. T. Pelton, Military Secretary. The Governor and staff, escorted by the Washington Gray Cavalry, role the whole length of the line, and then took a position at the left of the stand, while the division passed in review.

A platoon of mounted pelice headed the column, fol-lowed by Superintendent Walling and his staff, supported by the Broadway platoon. Major-Gen. Shaler, commanding the division, followed, accompanied by his staff. Gen. J. M. Varian, with his staff, led the Third Brigade. The 7th Regiment, Col Emmons Clark, came first, with 10 companies of 24 files front, in heavy marching order, headed by Grafulla's Band. The 9th Regiment, Col. Hitchcock, came next, marching with a front of 18 files, and with 10 companies. The band of each regiment played from a position opposite the stand until the regiment had passed, when it wheeled into line

each regiment played from a position opposite the stand until the regiment had passed, when it wheeled into line in the rear. The 8th Regiment, Col. Scott, was next, marching in eight companies of 14 files front, and the 11th Regiment, with six companies of 12 files front, brought up-the rear of the brigade.

Gen. W. G. Ward and staff of the First Brigade were the next to salute the Governor. They were at the head of the 12th Regiment, Col. John Ward, which was preceded by Dodworth's Band. The regiment paraded with 10 companies of 14 files front. The green and red plunes of the 69th, Col. Cavanaugh, were next seen, with 7 companies of 14 files. Gilmore's Band marched at the head of the 22d Regiment, Col. Forter, which inched out 10 companies of 18 files front. The 71st Regiment, Col. Vose, was next, marching 14 files front, with 8 companies, and the 79th, Col. Laing, brought up the rear of the brigade, with 8 companies of 14 files choit.

Gen. Frederick Vilmar and staff rode at the head of the Second Brigade, which is chiefly formed of German regiments. The 84th, Col. Conking, led with seven companies of 12 files front, followed by the 5th Regiment, Col. Spencer, marching with 10 companies, 14 files front; six companies of the 96th, Col. Stant Jeanne next, followed by the 11th, Col. Unbekant with 8 companies of 12 files each, Battery B. Cant. John Klein commanding, with six fleid pieces, followed the second Brigade, Battery K. First Lieut. Holzie commanding, being next, Capi. Klein, with the Separate Troop of Cavalry, and two platoons of the Washington Gray Treep, covered the the rear of the column, which was disbanded immediately afterward.

Gov. Tiden, Gen. Shaler, the brigade commanders and Gov. Tilden, Gen. Shaler, the brigade commanders and their staffs then rode to the Army and Navy Club-house, in Twenty-seventa-st., and partook of a collation.

THE AMERICAN BIBLE UNION. TWENTY-SIXTR ANNUAL SESSION-PESIGNATION OF

THE REV. DR. ARMITAGE AS PRESIDENT. The twenty-sixth annual meeting of the American Bible Union was held yesterday at the Baptist Mariners' Temple at Henry and Oliver-sts. The Rev. Thomas Armitage, D. D., who has been President of the Union during the past 19 years, presided at the opening exercises, after which he tendered his resignation. The Rev. Dr. A. C. Osborne of the Twenty-fifth Street Baptist Church was elected President in his stead. Later in the day Dr. Armitage delivered a farewell address as presiding officer, during which he referred to the organization of the Union in 1850. He spoke in affectionate terms to those who began the work with him. The reason for retiring from the presidency of the Society at this time, Dr. Armitage stated, was principally owing to the great amount of work required of him in his church, to which he wished bereafter to devote his whole time. The refor interest on bonds, \$424,334 18. making a total of \$3,126,688 18, and leaving a surplus for the year of \$102,471 65.

The capital stock of the International Ocean Telegraph Company is \$1,500,000, represented by 6,500 shares of preferred stock, entitled to dividends at the rate of 15 per cent per annum, and \$5,500 shares of common stock. The Western Union Company own \$499,900 of the preferred stock, and \$478,500 of the common stock. Total, \$978,400.

The operations of the Ocean Telegraph Company for the year ending June 30, 1875, have been as follows; Receipts, \$238,532 83; ordinary expenses, \$81,918 07; reconstruction of cables, \$53,150 43; giving a total of \$135,085 50; and a net profit of \$163,864 33.

The steamer Morse within a short time has successfully laid the new cable between Punta Rosa and Key West, the construction of which was one of the objects of President Orton's visual to Europe some time ago.

The number of telegraphic money orders received during the pear was 34,853. The amount transferred thereby was \$1,965,247,06, and the revenue accruing to the Company was \$87,219 40, being an increase over the revenue received during the preceding year of \$6,889 54, or about \$19 per cent.

REPLIES TO CHARGES BY THE CONTROLLER. Controller Green yesterday addressed a letter to Mayor Wickham, emphatically protesting against the improvement of Riverside Park, which he had been informed the Department of Parks is about to enter upon. He charges that the work is to be undertaken for political and speculative purposes, and urges that it is unneces-sary and would increase the city debt. In reply, Mayor Wickham states that he is glad to be able to show that the Park Department seems not to have been extravagant in the matter. He has been assured by Commissioner Williamson that only \$15,000 had been authorized to be expended on Riverside Park. Mr. Siebbins, the records of Albany County in response to the intima-President of the Park Commission, in a recent letter to the Mayor, stated that the Department has determined to keep only 50 or 60 laborers at work for a few weeks in stripping the upper soil from the proposed roads and drives in Riverside Park. The Commissioners contemplate deing no further work on that Park, and in-tend to do some work on all the city parks without dis-crimination.

crimination.

The Mayor, in the same letter, refers to the Controller's charges against the Commissioner of Public Works, and calls the Controller's attention to two of his (Mayor Wickham's) letters asking for the evidence upon which they were based. These letters have not been an evered, and the Mayor states that the delay in producing the evidence, if the charges are true, is detrimental to the public interests.

ACCOUNTING FOR MISSING INDICTMENTS It is stated, at the District Attorney's office, that of the 1.061 indictments said to be missing from the office of the clerk of the Court of General Sessions in testimony given before the Assembly Investigating Committee on Crime on Tuesday, all except three, one of which was accounted for, were in the District Attorney's office, and that Mr. Townsend, the counsel of the Committee, had been informed of that fact. The explanation given is that indictments are held in the District-Attorney's Is that indictments are held in the District-Attoracy's office until some final action is taken on them. Until indicted persons are arrested the indictments must be kept secret. After they have been finally acted upon they are returned to the clerk of the Court, who files them away. The witness was allowed to see the book containing the list of indictments and the indictments in the clerk's office, the difference being those which should be in the District-Attorney's office. As to the two missing ones, they are for minor crimes and have been possibly folded inside of some other indictment, it is stated, or placed in a wrong pigeon-hole.

FAILURE OF DRY GOODS MERCHANTS.

Strauss, Lehman &Co., dry goods importers, at No. 80 Leonard-st., yesterday made a general assignment to Morris Tuska for the benefit of their creditors The liabilities of the firm are about \$450,000. The amount of assets cannot be learned, but is stated to be enough to pay a fair dividend. The firm has been in existence nearly thurty years, and this is its first failure. That fact, together with the established reputation of the house, causes a general sympathy for the insolvent firm. nonse, causes a general sympathy for the insolvent firm. The failure is said to have been caused by the depression in business, shrinkage in values, and the difficulty in making collections. Heavy losses have also been brought about by recent rulings of the Custom-house officials, raising the duties on large lines of goods sold to arrive. Nearly the entire indebtedness of the firm is to foreign manufacturers, chiefly in England.

THE POLICE COMMISSIONERS' HEARING DE-

LAYED. Yesterday at noon was the time appointed for the Police Commissioners who had not previously tendered their resignations to appear before Mayor Wickham and show cause why they should not be removed from office. At 12 o'clock, precisely, Commissioner Matcovered. In most of the cases given, outside of the Ring actions, the city is the defendant. More than one-half of the suits are brought by persons who desire to have fing days figures largely, the Globe Printing Company alone asking for \$41.688.

Large amounts are asked for damages for property Large amounts are asked for damages for property laken for the Church-st, extension. Thomas Donovan, for injuries sustained by the falling of the adjoining wall

would be made, and requested them to make all state-ments or discussions in person, or by counsel, in writing.

THE LEGISLATURE ABOUT 115 REPUBLICANS TO 35 DEMOCRATS-5,000 GAIN IN THE STATE.

DES MOINES, Iowa, Oct. 13 .- Up to this hour (11 p. m.) The State Register has special dispatches giving complete reports from 61 of the 100 counties of the State. Of these, 53 give Republican gains aggregating 5,002. These countles represent three-fourths of the State. The counties not heard from are mostly in the north-west, and are the strongest Republican countles in the State. The Register estimates that the total Republican majority in the State is 33,000, a gain of a little over 5,000. A Republican gain of two in the Senate, and a loss of five in the House is reported. This, with the others to come in, will make the House stand 75 Republicans to 25 Democrats. The Senate will stand 40 Republicans to 10

FURTHER DETAILS.

DERCQUE, Iowa, Oct. 13.-Special dispatches to The Times from nearly all the counties in Northern and Central Iowa show considerable Republican gains over last year, when the Republican candidate for Secretary of State had 29,000 majorny. This would indicate Kirkwood's election by from 35,000 to 40,000. The Legislature will be much more strongly Republican than two years ago, insuring the election of a Republican United States Senator in place of Senator Wright. In Northern Iowa the Republicans probably lose a Senator in Clayton County, but will probably gain one in Jackson. They gain one Representative in Lynn, three in Dubuque, two in Jones, one in Winnishick, one in Clinton, and one in Chickasaw. In this county the Republicans will have a clear Repub lican representation in the Legislature for the first time in its history, having, it is believed, elected all the mem-
